

Angela Hospice Healing Touch

What is Healing Touch?

Healing Touch is a relaxing, nurturing energy-based therapy. It is used along with traditional health care to promote health and wellness in the body, mind, and spirit.

How does it work?

Practitioners provide treatment by using light touch or keeping the hands a few inches off the body in the energy field to assist in balancing your physical, emotional, mental, and spiritual well-being

Healing Touch is done in a quiet area with gentle music playing. You remain fully clothed.

What benefits does it have?

Research suggests Healing Touch may benefit some patients by:

- Creating a sense of well-being
- Decreasing pain
- Deepening spiritual connection
- Enhancing end-of-life care
- Promoting relaxation
- Reducing anxiety

This complementary therapy is available to patients in the Angela Hospice Care Center at no extra charge.
