END-OF-LIFE NURSING EDUCATION CONSORTIUM (ELNEC) Core Curriculum
Copyright City of Hope and American Association of Colleges of Nursing, 2006; Revised 2014.

The End-of-Life Nursing Education Consortium (ELNEC) Project is a national end-of-life educational program administered by City of Hope (COH) and the American Association of Colleges of Nursing (AACN) designed to enhance palliative care in nursing. The ELNEC Project was originally funded by a grant from The Robert Wood Johnson Foundation with additional support from funding organizations (Aetna Foundation, Archstone Foundation, California HealthCare Foundation, Cambia Health Foundation, Milbank Foundation for Rehabilitation, National Cancer Institute, Oncology Nursing Foundation, Open Society Institute/Foundation, and the US Department of Veterans Affairs). Further information about the ELNEC Project can be found at www.aacn.nche.edu/ELNEC.

OBJECTIVES:

1. Identify common symptoms associated with end-of-life processes for patients across the life span
2. Identify potential causes of symptoms at the end of life
3. Describe assessment of symptoms at the end of life.
4. Describe interventions that can prevent or diminish symptoms at the end of life.

This continuing nursing education activity was approved by the Ohio Nurses Association (OBN-001-91), an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. Criteria for successful completion includes attending the entire session and turning in an evaluation form.
