

Who Can Receive Care?

Anyone living with serious illness may benefit from Palliative Care. Consultation visits can be made to patients living at home, in an assisted living facility, or in a nursing home.

ANGELA PALLIATIVE CARE AIMS TO RELIEVE SYMPTOMS AND ENHANCE QUALITY OF LIFE

Our goal is to reduce emergency room visits and the likelihood of having to be hospitalized again.

For some patients living with life-limiting disease, intensive care is not wanted or helpful.

WHAT IS PALLIATIVE CARE?

Palliative Care is a specialized form of health care designed to support the needs of people facing progressive illnesses.

This unique medical approach effectively enhances quality of life, by managing a patient's symptoms without the disruption of office visits or hospital stays.

Angela's Palliative Care team is specially trained in guiding goals of care discussions and advance care planning. Our goal is to address the individual needs of people with a serious illness, while offering support to family members as well.

AN EXTRA LAYER OF SUPPORT THAT WORKS

SIDE BY SIDE WITH YOUR CURRENT HEALTH CARE TEAM

What Services Are Provided?

Palliative Care is based on a patient's needs and wishes, along with guidance from the patient's physician. Visits are made by a board-certified physician or a board-certified nurse practitioner with expertise in palliative care. They can help with:

- **COORDINATING CARE**
Our Palliative Care team will communicate with your physician and other health care professionals on your behalf. They can also assist with transitioning care services, such as enrolling in hospice care if appropriate, or returning to your daily routine if Palliative Care is no longer needed.
- **EXPLORING HEALTH CARE OPTIONS**
Palliative Care allows you the freedom to choose curative treatments in addition to receiving the benefits of holistic comfort care to improve quality of life.
- **MANAGING PAIN AND OTHER SYMPTOMS**
After a consultation, our team will provide recommendations to you and your primary care physician regarding your needs.
